

VoIP SERVICES

Instant number provisioning, origination services

CoreTel offers a variety of services geared to VoIP carriers, including IP Telephony, Origination, Instant Number Provisioning and Vanity Number Provisioning. With RBOC, ILEC, and RLEC rate centers throughout the Mid Atlantic region, CoreTel can provide VoIP network solutions for your service provider at reduced costs and allow you to develop and manage a wider choice of dynamic phone services for your customers.

IP Telephony

Leveraging voice and data convergence, CoreTel offers tailored telecommunication services to VoIP service providers, Carriers, ISPs and ASPs. As a CLEC specializing in IP applications for over 12 years, CoreTel can provide ample, reliable capacity and support to your high volume VoIP network.

SIP Origination

Through our infrastructure of media gateways and redundant soft switches, as well as proprietary call routing software, CoreTel can provide both easy provisioning and high volume call support, all aggressively priced on a wholesale only basis. Our growing network encompasses over a thousand rate centers, including RBOC, larger ILEC, and smaller RLEC rate centers. We are the first and only CLEC licensed to operate in 30+ RLEC territories in Pennsylvania.

Check online for a complete and current list.

Instant Number and Vanity Number Provisioning

CoreTel is proud to offer this innovative service. Through the use of a web- or XML-based API system, we can automatically and instantly provision numbers from our inventory of more than a million NANPA numbers.

About CoreTel

CoreTel is a CLEC dedicated to VoIP and ISP services. In business since 1997, our telephone network is designed to support service provider needs, and services are priced to support your margins. With interconnections in 14 LATAs, spanning over 100,000 DS0's of capacity, we can handle your needs, and exclusively support service providers - We do not sell VoIP to end users directly, only to VoIP providers and ISPs.

Contact CoreTel today to learn more about how we can service your VoIP provider or ISP. Email sales@coretel.net or visit www.coretel.net.
